

PURPOSE OF NONINSTRUCTIONAL AND BUSINESS SERVICES

This series of the board policy manual is devoted to the goals and objectives for the school district's noninstructional services and business operations that assist in the delivery of the education program. These noninstructional services include, but are not limited to, transportation, the school lunch program and child care. The board, as it deems necessary, will provide additional noninstructional services to support the education program. To the extent a group of employees has a recognized collective bargaining unit, the provisions of the master contract regarding such topics shall prevail.

It is the goal of the board to provide noninstructional services and to conduct its business operations in an efficient manner.

DEPOSITORY OF FUNDS

Each year at its annual meeting, the board will designate by resolution the name and location of the Iowa located financial depository institution or institutions to serve as the official school district depository or depositories. The maximum deposit amount to be kept in the depository will be stated in the resolution. The amount stated in the resolution must be for all depositories and include all of the school district's funds.

It is the responsibility of the board secretary to include the resolution in the minutes of the meeting.

TRANSFER OF FUNDS

When the necessity for a fund has ceased to exist, the balance may be transferred to another fund or account by board resolution. School district monies received without a designated purpose may be transferred in this manner.

School district monies received for a specific purpose or upon vote of the people may only be transferred, by board resolution when the purpose for which the monies were received has been completed. Voter approval is required to transfer monies to the general fund from the capital projects fund and debt service fund.

If all requirements for district use of funds calculated under the teacher leadership supplement are met and funds remain unexpended and unobligated at the end of the fiscal year, the district may transfer all or a portion of remaining funds into the district's flexibility account in accordance with law.

The district may choose to request approval from the School Budget Review Committee to transfer funds to make a program whole, prior to its elimination.

Temporary transfers (loans) of funds are permitted between funds but must be repaid to the originating fund, with interest, by Oct. 1 following the end of the fiscal year.

It is the responsibility of the board secretary to make recommendations to the board regarding transfers and to provide the documentation justifying the transfer.

Governmental fund type:

- General fund
- Special revenue fund

A debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Proprietary funds account for operations of the school district operated similar to private business, and they account for the costs of providing goods and services provided by one department to other departments on a cost reimbursement basis. GOVERNMENTAL ACCOUNTING PRACTICES AND REGULATIONS

School district accounting practices will follow state and federal laws and regulations, generally accepted accounting principles (GAAP) and the uniform financial accounting system provided by the Iowa Department of Education. As advised by the school district's auditor, determination of liabilities and assets, prioritization of expenditures of governmental funds and provisions for accounting disclosures shall be made in accordance with governmental accounting standards.

In Governmental Accounting Standards Board (GASB) Statement No. 54, the board identifies the order of spending unrestricted resources applying the highest level of classification of fund balance - restricted, committed, assigned, and unassigned - while honoring constraints on the specific purposes for which amounts in those fund balances can be spent. A formal board action is required to establish, modify and or rescind a committed fund balance. The resolution will state the exact dollar amount. In the event, the board chooses to make changes or rescind the committed fund balance, formal board action is required.

The Board authorizes the superintendent and board secretary to assign amounts to a specific purpose in compliance with GASB 54. An 'assigned fund balance' should also be reported in the order of spending unrestricted resources, but is not restricted or committed.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy. It is also the responsibility of the superintendent to make recommendations to the board regarding fund balance designations.

Prior to certification of the budget, the board will review the projected revenues and expenditures for the school district and make adjustments where necessary to carry out the education program within the revenues projected.

A budget for the school district is prepared annually for the board's review. The budget will include the following:

- the amount of revenues from sources other than taxation;

DEBT MANAGEMENT POLICY

DEBT LIMITS

Credit Ratings

The school district seeks to maintain the highest possible credit ratings for all categories of short- and long-term debt that can be achieved without compromising the delivery of services and the achievement of adopted objectives. The school district recognizes that external economic, natural, or other events may from time to time affect the creditworthiness of its debt. Nevertheless, the school district is committed to ensuring that actions within their control are prudent.

Debt Limits

For general obligation debt, the school district's outstanding debt limit shall be no more than five percent (5%) of the actual value of property within the school district's boundaries, as prescribed the Iowa constitution and statutory restrictions.

For revenue debt, the school district's goal is to provide adequate debt service coverage of at least 1.20 times the annual debt service costs.

In accordance with Iowa law, the school district may not act as a conduit issuer or issue municipal securities to raise capital for revenue-generating projects where the funds generated are used by a third party ("conduit borrower") to make payments to investors.

PURPOSES AND USES OF DEBT

Capital Planning

To enhance creditworthiness and prudent financial management, the school district is committed to systematic capital planning, intergovernmental cooperation and coordination and long-term financial planning.

Capital Financing

The school district may issue long-term debt for capital projects as authorized by Iowa law, which include, but are not limited to, the costs of planning, design, land acquisition, buildings, permanent structures, attached fixtures or equipment, and movable pieces of equipment. Capitalized interest may be included in sizing any capital project debt issue. The types of debt instruments to be used by the school district include:

- General Obligation Bonds
- General Obligation Capital Loan Notes
- Bond Anticipation Notes
- Revenue Anticipation Notes
- School Infrastructure Sales, Services and Use Tax Revenue Bonds
- Lease Purchase Agreements, including Certificates of Participation

Working Capital Financing

The school district may issue debt for working capital for operations after cash flow analysis has determined that there is a mismatch between available cash and cash outflows. The school district shall strive to repay working capital debt by the end of the fiscal year in which the debt was incurred. A Working Capital Reserve may be included in sizing any working capital debt issue.

DEBT MANAGEMENT POLICY

Refundings

Periodic reviews of all outstanding debt will be undertaken to determine if refunding opportunities exist.

Refunding will be considered (within federal tax law restraints) if and when there is a net economic benefit of the refunding or if the refunding is otherwise in the best interests of the school district, such as to release restrictive bond covenants which affect the operations and management of the school district.

In general, advance refundings for economic savings will be undertaken when a net present value savings exceeds three percent of the refunded debt can be achieved. Current refundings, which produce a new present value savings of less than three percent will be considered on a case by case basis taking into consideration bond covenants and general conditions. Refundings with negative savings will not be considered unless there is a compelling public policy objective for doing so.

DEBT STANDARDS AND STRUCTURE

Length of Debt

Debt will be structured for the shortest period consistent with a fair allocation of costs to current and future beneficiaries or users. Long-term debt will not be issued for periods exceeding the useful life or average useful lives of the project or projects to be financed. All debt issued will adhere to state and federal law regarding the length of time the debt may be outstanding.

Debt Structure

Debt will be structured to achieve the lowest possible net cost to the school district given market conditions, the urgency of the capital project, the type of debt being issued, and the nature and type of repayment source. To the extent possible, the school district will design the repayment of its overall debt to rapidly recapture its credit capacity for future use.

Generally, the school district will only issue fixed-rate debt. In very limited circumstances, the school district may issue variable rate debt, consistent with the limitations of Iowa law and upon a finding of the board that the use of fixed rate debt is not in the best interest of the school district and a statement of the reasons for the use of variable rate debt.

All debt may be structured using discount, par or premium coupons, and as serial or term bonds or notes, or any combination thereof, consistent with Iowa law. The school district should utilize the coupon structure that produces the lowest True Interest Cost (TIC) taking into consideration the call option value of any callable maturities.

The school district will strive to structure their debt in sinking fund installments for each debt issue that achieves, as nearly as practicable, level debt service within an issue or overall debt service within a particular classification of debt.

Derivatives (including, but not limited to, interest rate swaps, caps, collars, corridors, ceiling and floor agreements, forward agreements, float agreements, or other similar financing arrangements), zero-coupon or capital appreciation bonds are not allowed to be issued consistent with State law.

Decision Analysis to Issue Debt

Whenever the school district is contemplating the issuance of debt, information will be developed concerning the following four categories commonly used by rating agencies assessing the school district's credit worthiness, listed below.

Debt Analysis – Debt capacity analysis; purpose for which debt is proposed to be issued; debt structure; debt burden; debt history and trends; and adequacy of debt and capital planning.

DEBT MANAGEMENT POLICY

Financial Analysis – Stability, diversity, and growth rates of tax or other revenue sources; trend in assessed valuation and collections; current budget trends; appraisal of past revenue and expenditure trends; history and long-term trends of revenues and expenditures; evidences of financial planning; adherence to GAAP; audit results; fund balance status and trends in operating and debt funds; financial monitoring systems and capabilities; and cash flow projections.

Governmental and Administrative Analysis – Government organization structure; location of financial responsibilities and degree of control; adequacy of basic service provision; intergovernmental cooperation/conflict and extent of duplication; and overall planning efforts.

Economic Analysis – Geographic and location advantages; population and demographic characteristics; wealth indicators; types of employment, industry and occupation; housing characteristics; new construction; evidences of industrial decline; and trend of the economy.

DEBT ISSUANCE

Credit Enhancement

Credit enhancements (i.e., bond insurance, etc.) may be used but only when the net debt service on the debt is reduced by more than the costs of the credit enhancement.

Costs and Fees

All costs and fees related to issuing the debt will be paid out of debt proceeds and allocated across all projects receiving proceeds of the debt issue.

Method of Sale

Generally, all school district debt will be sold through a competitive bidding process. Bids will be awarded on a TIC basis providing other bidding requirements are satisfied.

The school district may sell debt using a negotiated process in extraordinary circumstances when the complexity of the issue requires specialized expertise, when the negotiated sale would result in substantial savings in time or money, or when market conditions of school district credit are unusually volatile or uncertain.

Professional Service Providers

The school district will retain external bond counsel for all debt issues. All debt issued by the school district will include a written opinion by bond counsel affirming that the school district is authorized to issue the debt, stating that the school district has met all Iowa constitutional and statutory requirements necessary for issuance and determining the debt's federal income tax status. The bond counsel retained must have comprehensive municipal debt experience and a thorough understanding of Iowa law as it relates to the issuance of the particular debt.

The school district will retain an independent financial advisor. The financial advisor will be responsible for structuring and preparing all offering documents for each debt issue. The financial advisor retained will have comprehensive municipal debt experience, experience with diverse financial structuring and pricing of municipal securities.

The treasurer shall have the authority to periodically select other service providers (e.g., escrow agents, verification agents, trustees, arbitrage consultants, rebate specialist, etc.) as necessary to meet legal requirements and minimize net debt costs. These services can include debt restructuring services and security or escrow purchases.

DEBT MANAGEMENT POLICY

Compensation for bond counsel, financial advisor and other service providers will be as economical as possible and consistent with industry standards for the desired qualification levels.

DEBT MANAGEMENT

Investment of Debt Proceeds

The school district shall invest all proceeds received from the issuance of debt separate from the school district's consolidated cash pool unless otherwise specified by the authorizing bond resolution or trust indenture. Investments will be consistent with those authorized by Iowa law and the school district's Investment Policy to maintain safety of principal and liquidity of the funds.

Arbitrage and Record Keeping Compliance

The treasurer shall maintain a system of record-keeping, reporting and compliance procedures with respect to all federal tax requirements which are currently, or may become applicable through the lifetime of all tax-exempt or tax credit bonds.

Federal tax compliance, record-keeping, reporting and compliance procedures shall include not be limited to:

- 1) post-issuance compliance procedures (including proper use of proceeds, timely expenditure of proceeds, proper use of bond financed property, yield restriction and rebate, and timely return filing);
- 2) proper maintenance of records to support federal tax compliance;
- 3) investments and arbitrage compliance;
- 4) expenditures and assets;
- 5) private business use; and
- 6) designation of primary responsibilities for federal tax compliance of all bond financings.

Financial Disclosure

The school district is committed to full and complete financial disclosure, and to cooperating fully with rating agencies, institutional and individual investors, other levels of government, and the general public to share comprehensible and accurate financial information. The school district is dedicated to meeting secondary disclosure requirements on a timely and comprehensive basis, as promulgated by the Securities and Exchange Commission.

The Official Statements accompanying debt issues, Annual Audits, and Continuing Disclosure statements will meet the standards articulated by the Municipal Securities Rulemaking Board (MSRB), the Government Accounting Standards Board (GASB), the Securities and Exchange Commission (SEC), Generally Accepted Accounting Principles (GAAP) and the Internal Revenue Service (IRS). The treasurer shall be responsible for ongoing debt disclosure as required by any Continuing Disclosure Certificate for any debt issue and for maintain compliance with disclosure standards promulgated by state and federal regulatory bodies

PURCHASING – BIDDING

The board supports economic development in Iowa, particularly in the school district community. As permitted by law, purchasing preference will be given to Iowa goods and services from locally-owned businesses located within the school district or Iowa based companies if the cost and other considerations are relatively equal and meet the required specifications. However, when spending federal Child Nutrition Funds, geographical preference is allowed only for unprocessed agricultural food items as a part of response evaluation. Other statutory purchasing preferences will be applied as provided by law, including goals with regard to procurement from certified targeted small businesses, minority-owned businesses, and female owned businesses.

Prior to August 15 of each year and after analyzing the school district's anticipated procurement level for the current fiscal year, the school board will set a goal of ten percent of the anticipated procurement level to be purchased from certified targeted small businesses. In determining the procurement level, the cost of utilities (heat, electricity, telephone and natural gas) and employees' costs will not be included. After the goal has been established, the superintendent will file the required Targeted Small Business Procurement form with the Department of Education by August 15.

By July 31 of each year, the superintendent will file a report with the Department of Education outlining purchases of goods and services from targeted small businesses for the previous fiscal year.

The school board and superintendent will encourage targeted small businesses which are not certified with the Department of Inspections and Appeals to become certified targeted small businesses.

Goods and Services

The board shall enter into goods and services contract(s) as the board deems to be in the best interest of the school district. It shall be the responsibility of the superintendent to approve purchases, except those requiring board approval as described below or as provided by in law. The superintendent may coordinate and combine purchases with other governmental bodies to take advantage of volume price breaks. Joint purchases with other political subdivisions will be considered in the purchase of equipment, accessories, or attachments with an estimated cost of \$50,000 or more.

Purchases for goods and services shall conform to the following:

- The superintendent shall have the authority to authorize purchases without prior board approval and without competitive request for proposals, quotations, or bids for goods and services up to \$2,500.
- For goods and services costing at least \$2,500 and up to \$50,000, the superintendent shall receive proposals, quotations, or bids for the goods and services to be purchased prior to board approval. The quotation process may be informal, and include written or unwritten quotations.
- For goods and services exceeding, \$50,000 the competitive request for proposal (RFP) or competitive bid process shall be used and received prior to board approval. RFPs and bids are formal, written submissions via sealed process.

In the event that only one quotation or bid is submitted, the board may proceed if the quotation or bid meets the contract award specifications.

The contract award may be based on several cost considerations including, but not limited to the following:

- The cost of the goods and services being purchased;
- Availability of service and/or repair;
- The targeted small business procurement goal and other statutory purchasing preferences; and
- Other factors deemed relevant by the board.

The Board may elect to exempt certain professional services contracts from the thresholds and procedures outlined above.

The thresholds and procedures related to purchases of goods and services do not apply to public improvement projects.

Public Improvements

The board shall enter into public improvement contract(s) as the board deems to be in the best interest of the school district. 'Public improvement' means "a building or construction work which is constructed under the control of a governmental entity and for which either of the following applies: (1) has been paid for in whole or in part with funds of the governmental entity; (2) a commitment has been made prior to construction by the governmental entity to pay for the building or construction work in whole or in part with funds of the governmental entity. This includes a building or improvement constructed or operated jointly with any public or private agency."

The district shall follow all requirements, timelines, and processes detailed in Iowa law related to public improvement projects. The thresholds regarding when competitive bidding or competitive quotations is required will be followed. Competitive bidding is required for public improvement contracts exceeding the minimum threshold stated in law. Competitive quotations are required for public improvement projects that exceed the minimum threshold amount stated in law, but do not exceed the minimum set for competitive bidding. The board shall approve competitive bids and competitive quotes. If the total cost of the public improvement does not warrant either competitive bidding or competitive quotations, the district may nevertheless proceed with either of these processes, if it so chooses.

The award of all contracts for the public improvement shall be awarded to the lowest responsive, responsible bidder. In the event of an emergency requiring repairs to a school district facility that exceed bidding and quotation thresholds, please refer to IASB sample policy 802.3 – *Emergency Repairs*.

The district shall comply with all federal and state laws and regulations required for procurement, including the selection and evaluation of contractors. The superintendent or designee is responsible for developing an administrative process to implement this policy, including, but not limited to, procedures related to suspension and debarment for transactions subject to those requirements.

PURCHASING – BIDDING – SUSPENSION AND DEBARMENT OF STATUS

In connection with transactions subject to federal suspension and debarment requirements, the district is prohibited from entering into transactions with parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in federal assistance programs or activities.

When soliciting bids or otherwise preparing to enter into such a transaction, the superintendent or designee will use at least one of the following verification methods to ensure that any parties to the transaction are not suspended or debarred prior to committing to any sub-award, purchase, or contract:

1. Obtaining a certification of a party's compliance with the federal suspension and debarment requirements in connection with any application, bid, or proposal;
2. Requiring compliance with the federal suspension and debarment requirements as an express condition of any sub-award, purchase, or contract in question; or
3. Prior to committing to any sub-award, purchase, or contract, check the online Federal System for Award Management at <https://sam.gov/reports/awards/standard> to determine whether the relevant party is subject to any suspension or debarment restrictions.

A non-Federal entity or applicant for a Federal award must disclose, in a timely manner, in writing to the Federal awarding agency or pass-through entity all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Non-Federal entities that have received a Federal award including the term and condition outlined in Appendix XII—Award Term and Condition for Recipient Integrity and Performance Matters are required to report certain civil, criminal, or administrative proceedings to SAM. PURCHASING – BIDDING – USING FEDERAL FUNDS IN PROCUREMENT CONTRACTS

In addition to the District's standard procurement and purchasing procedures, the following procedures for vendors/contractors paid with federal funds are required. When federal, state, and local requirements conflict, the most stringent requirement will be followed.

2 CFR Part 200, Subpart D Subsection §200.318 (c)(1)

No District employee, officer, or agent may participate in the selection, award and administration of contracts supported by a Federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. District officers, employees, and agents may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, for situations where the financial interest is not substantial or the gift is an unsolicited item of nominal value, district employees must abide by all relevant board policies. Violation of this requirement may result in disciplinary action for the District employee, officer, or agent.

2 CFR Part 200, Subpart D Subsection §200.320 (e)(1-4)

Procurement for contracts paid with federal funds may be conducted by noncompetitive (single source) proposals when one or more of the following circumstances apply: (1) the item is only available from a single source; (2) public exigency or emergency will not permit the delay resulting from competitive bids; (3) the Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the non-Federal entity; or (4) after solicitation of a number of sources, competition is inadequate.

2 CFR Part 200, Subpart D Subsection §200.321

The District will take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include: (1) placing such businesses on solicitation lists; (2) soliciting such businesses whenever they are potential sources; (3) when economically feasible, dividing contracts into smaller tasks or quantities to allow participation from such businesses; (4) establishing delivery schedules that encourage participation by such businesses; (5) when appropriate, utilizing the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and (6) requiring the primary contractor to follow steps (1) through (5) when subcontractors are used.

The district will include the following provisions in all procurement contracts or purchase orders include the following provisions when applicable:

2 CFR Part 200 Appendix II

(A) Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

(B) All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts

that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal

Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of “funding agreement” under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of \$150,000 must contain a

Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(I) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

The board authorizes the issuance of warrants for payment of claims against the school district for goods and services. The board will allow the warrants after the goods and services have been received and accepted in compliance with board policy and the claims audited by the board.

Claims for payment of freight, drayage, express, postage, printing, water, lights, telephone, rents, and payment of salaries pursuant to the terms of a written contract may be paid by the board secretary prior to formal audit and approval by the board. In addition the secretary, upon approval of the board president, may issue warrants for approved registrations, claims offering a discount for early payment, approved travel expenses, approved goods and services delivered C.O.D. and other verified bills filed with the secretary when the board is not in session prior to payment of these claims and prior to audit and approval by the board. The secretary will determine to the secretary's satisfaction that the claims presented to the board are in order and are legitimate expenses of the school district. It is the responsibility of the secretary to bring claims to the board.

The board president and board secretary may sign warrants by use of a signature plate or rubber stamp. If the board president is unavailable to personally sign warrants, the vice president may sign warrants on behalf of the president.

EXPENDITURES FOR A PUBLIC PURPOSE

The board recognizes that school district funds are public funds, and as such, should be used to further a public purpose and the overall educational mission of the school community. The district is committed to managing and spending public funds in a transparent and responsible manner. Prior to making a purchase with public funds, an individual should be comfortable defending the purchase/reimbursement to the taxpayers in the district. If the individual is uncomfortable doing so, the purchase may not fulfill a public purpose and additional guidance should be sought before the purchase is made.

Individuals who have concerns about the public purpose of a purchase or reimbursement should utilize the district's *Internal Controls* policy and regulation as a resource for questioning a purchase. Concerns should be reported to the superintendent and/or the board president.

The superintendent shall develop a process for approving expenditures of public funds. The board will review expenditures and applicable reports as necessary to ensure proper oversight of the use of public funds. To the extent possible, expenditures shall be pre-approved by the district prior to expending the funds. Purchases of food and refreshment for district staff, even within district, should comply with the district's *Employee Travel Compensation* policy, and all other applicable policies. All purchases/reimbursements shall comply with applicable laws, board policies and district accounting requirements.

Additional guidance regarding appropriate expenditures of school funds is provided in the regulation accompanying this policy

NOTE: All use of public funds should directly serve a public purpose in a clear and transparent manner. Districts should consider what purchasing and reimbursement flexibility is needed for their district and apply all restrictions equally.

USE OF PUBLIC FUNDS REGULATION

The following is a list of examples organized by activity for what is allowable, or not allowable as a purchase/reimbursement using public funds. This regulation is intended as guidance and there may be situations that are not listed here. Any questions regarding the appropriateness of an expenditure should be submitted to administration **prior** to expending funds.

Reimbursements to an Individual

- **Use of Credit/Procurement Card:** All purchases through a district-owned credit or procurement card shall be pre-approved and comply with the district's policy *401.10 – Credit and Procurement Cards*.
- **Mileage:** Individuals who are required to travel (other than to and from work) as part of fulfilling their job duties to the district shall be reimbursed for mileage costs in accordance with the requirements stated in the district's *Employee Travel Compensation* policy.
- **Travel accommodations:** Employees who are required to travel and stay overnight as part of fulfilling their job duties to the district shall be reimbursed for costs in accordance with the requirements stated in the district's *Employee Travel Compensation* policy.
- **Alcohol:** Alcohol is a personal expense and is never allowable for purchase or reimbursement using public funds.
- **Food/Refreshments:** Food and refreshments are typically a personal expense. Meetings spanning meal times should be avoided when possible. When a district meeting is required to take place spanning a customary meal time, the superintendent or designee shall determine whether food and/or refreshment will be provided to employees whose presence is required during the meeting. The cost of food and refreshment for employees shall be reasonable, and when possible, a separate itemized receipt for each employee is required. If an itemized receipt is not available, approval is required by the school business official prior to reimbursement. In all cases, the names and number of employees shall be noted on the receipt.
- **Apparel/Personal Items:** Apparel and personal items including, but not limited to items such as t-shirts, hats, mugs, etc. provide personal benefit to individuals and are a personal expense. These items shall not be purchased or reimbursed with public funds.
- **Gifts:** Gift cards or gifts given to individuals are personal expenses and public funds should not be used (except for recognition/staff retirement, listed below) for these purposes. Voluntary collections from staff would be an acceptable way of purchasing gifts.
- **Retirement and Recognition Gifts:** Recognizing an employee or volunteer's years of dedication to educating the community and commitment to the district serves a public purpose by honoring individuals with a token gift, or honorarium, in recognition of their service. The same is true for individual awards, mementos, or items purchased in recognition of employee service to the district. These purchases may use public funds, provided the expenditures are modest and approved by the superintendent.
- **Honoraria:** District employees may at times receive an honorarium from an outside source as compensation for the employee's time devoted to preparing and delivering a presentation within the scope of their professional field. Honorariums may only be accepted by employees when the employee has used their personal time outside of their work for the district to prepare and deliver the presentation. If the employee uses district time or resources to prepare or deliver a presentation, any honorarium shall be given to the district.

- **Break Room Supplies:** The purchase of perishable or disposable supplies for employee break rooms is primarily designed for individual consumption and is a personal expense. This includes items such as coffee, coffee filters, plates, cups, spoons, napkins, etc.

Supplies for Public Areas

- Limited refreshments such as water and coffee may be available in public reception areas of the district including, but not limited to the central office, the building administrator's office, etc. These refreshments may be purchased with the use of public funds, as they provide light refreshment to members of the community.

Staff Parties/Receptions

- Parties and receptions to benefit individual staff members are considered a personal expense and should not be purchased or reimbursed with public funds. This includes but is not limited to holiday parties.
- Hosting a group reception to honor all employees retiring from the district in a given school year is allowable as a public expense. Hosting a retirement reception provides a direct benefit to the community as an opportunity for the community to attend and honor the retiring employees' years of dedication and service to the district.

School/ Student Activity Banquets

- School/student activity banquets are typically a personal expense and will not be purchased or reimbursed with public funds unless the public purpose is submitted for review and pre-approved by the superintendent.

Memorial Gifts

- Memorial flowers to convey sympathy or congratulations are allowable as a public expense if they have been approved by the superintendent. Memorial cards are always appropriate.
- Memorial gifts of any sort other than flowers and a card are a personal expense.

Student Incentives

- It is within the discretion of the building principal to authorize the purchase of awards holding a nominal value to commemorate the achievements of a student or group of students. These awards should be designed to reward behavior and values that exemplify the educational and community mission of the district. Awards should not be gift cards or other monetary awards.
- Flowers and decorations for school dances held as part of the district's student activity program are an allowable expense paid out of the student activity fund, provided the purchases are approved by the building principal.

Meetings

- To the extent possible, meetings which span normal meal times should be avoided.
- Meetings of the district's board of directors and board committees are made up of individuals who volunteer a large amount of their personal time to serve the needs of the school community. These meetings are also scheduled at time most convenient for the public, and often span normal meal hours. Food and refreshment purchased for board members is an acceptable use of public funds. The service of these unpaid volunteers directly benefits the entire school community. The superintendent has discretion to purchase/reimburse reasonable expenses for providing food and refreshment to these unpaid volunteers during these meetings.

Some expenditures will be considered personal expenses regardless of the context. These include purchase or reimbursement of alcohol, and personal items not included as retirement or memorial gifts listed above.

PAYROLL DEDUCTIONS

Ease of administration is the primary consideration for payroll deductions, other than those required by law. Payroll deductions are made for federal income tax withholdings, Iowa income tax withholdings, social security, and the Iowa Public Employees' Retirement System.

Employees may elect to have payments withheld for professional dues, district-related and mutually agreed upon group insurance coverage, and/or tax sheltered annuity programs. Requests for these deductions will be made in writing to the superintendent. Written requests authorizing the purchase or change of tax-sheltered annuities must be made at least 30 days prior to the 20th of the effective month.

It is the responsibility of the superintendent to determine which additional payroll deductions will be allowed.

The requirements stated in the Master Contract between employees in a certified collective bargaining unit and the board regarding payroll deductions of such employees will be followed.

PAY DEDUCTIONS

The district provides leaves of absences to allow employees to be absent from work to attend to important matters outside of the workplace. As public employers, school districts are expected to record and monitor the work that employees perform and to conform to principles of public accountability in their compensation practices.

Consistent with principles of public accountability, it is the policy of the district that, when an employee is absent from work for less than one work day and the employee does not use accrued leave for such absence, the employee's pay will be reduced or the employee will be placed on leave without pay if:

- the employee has not sought permission to use paid leave for this partial-day absence,
- the employee has sought permission to use paid leave for this partial-day absence and permission has been denied,
- the employee's accrued paid leave has been exhausted, or
- the employee chooses to use leave without pay.

In each case in which an employee is absent from work for part of a work day, a deduction from compensation will be made or the employee will be placed on leave without pay for a period of time which is equal to the employee's absence from the employee's regularly scheduled hours of work on that day.

PAY DEDUCTION REGULATION

The district complies with all applicable laws with respect to payment of wages and benefits to employees including laws such as the federal Fair Labor Standards Act and the Iowa Wage Payment Collection Act. The district will not make pay deductions that violate either the federal or state laws.

Any employee who believes that the district has made an inappropriate deduction or has failed to make proper payment regarding wages or benefits is encouraged to immediately consult with the appropriate supervisor. Alternatively, any employee may file a formal written complaint with the Business Manager.

Within 15 business days of receiving the complaint, the Business Manager will make a determination as to whether the pay deductions were appropriate and provide the employee with a written response that may include reimbursement for any pay deductions that were not appropriately made.

STUDENT SCHOOL TRANSPORTATION ELIGIBILITY

Elementary and middle school students living more than two miles from their designated school attendance centers and high school students living more than three miles from their designated attendance centers are entitled to transportation to and from their attendance center at the expense of the school district.

Transportation of students who require special education services will generally be provided as for other students, when appropriate. Specialized transportation of a student to and from a special education instructional service is a function of that service and, therefore, an appropriate expenditure of special education instructional funds generated through the weighting plan.

Transportation of a student to and from a special education support service is a function of that service, and is specified in the individualized education program or the individualized family service plan (IFSP). When the IEP team determines that unique transportation arrangements are required and the arrangements are specified in the IEP or IFSP, the school district will provide one or more of the following transportation arrangements for instructional services and the AEA for support services:

- Transportation from the student's residence to the location of the special education and back to the student's residence, or child care placement for students below the age of six.
- Special assistance or adaptations in getting the student to and from and on and off the vehicle, en route to and from the special education.
- Reimbursement of the actual costs of transportation when by mutual agreement the parents provide transportation for the student to and from the special education.

The school district is not required to provide reimbursement to parents who elect to provide transportation in lieu of agency-provided transportation.

A student may be required, at the board's discretion, to meet a school vehicle without reimbursement up to three-fourths of a mile. The board may require the parent to transport their children up to two miles to connect with school bus vehicles at the expense of the school district when conditions deem it advisable. It is within the discretion of the board to determine such conditions. Parents of students who live where transportation by bus is impracticable or unavailable may be required to furnish transportation to and from the designated attendance center at the expense of the school district. Parents, who transport their children at the expense of the school district, are reimbursed at the rate per mile set by the state.

Transportation arrangements made by agreement with a neighboring school district will follow the terms of the agreement. Students, who choose to attend a school in a school district other than their resident school district, will provide transportation to and from the school at their own expense.

TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the actual "on location" decisions and reports of the drivers.

Several drivers each year will be specially designated to report weather and road conditions by bus radio when requested to do so. Other employees and students will be notified by commercial radio, TV, and/or student information system parent emergency contacts when school is cancelled or temporarily delayed. When school is cancelled because of weather anywhere in the school district, all schools will be closed.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced by commercial radio, TV, and/or student information system parent emergency contacts. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, students will be kept at or returned to school until they are picked up by the parents.
